YOUR VISION
of LUXURY

Calacatta Macchia Vecchia Lux

Calacatta Lincoln Lux

Calacatta Macchia
Vecchia Lux

CALACATTA MACCHIA VECCHIA LUX

A luxurious and natural background with gray veins and bold streaks of warm gold create an opulent palette. The varied width of the veins make each piece uniquely exquisite.

Calacatta Oro Lux

CALACATTA ORO LUX

Radiant white background with harmonious light gray and golden veins. This design exudes a warm, inviting luxury perfect for creating an ambiance of uplifted elegance in any space.

CREMA DELICATO LUX

This design has a white base with slender, feather-like veins in shades of gray and cream that give the surface an elegant appearance. The surface design's beauty creates a feeling of upliftment and lightness.

CALACATTA
LINCOLN LUX

This piece celebrates natural beauty with a white backdrop and delicate gray lines. The occasional whispers of gold add a touch of luxury. The unique characteristics marries art with modern design.

Calacatta Lincoln Lux

CALACATTA
BORGHINI LUX

The veins are a beautiful blend of soft grays and earth tones, flowing in an organic and fluid pattern that brings the stone to life, creating a luxurious pattern that will enhance any interior with its vivid appeal.

CALACATTA
CREMA LUX

Intricate veins that flow together in harmonious patterns. A combination of soft gray and creamy beige veins, creating a beautiful surface that whispers elegance.

Taj Mahal Lux Ultra

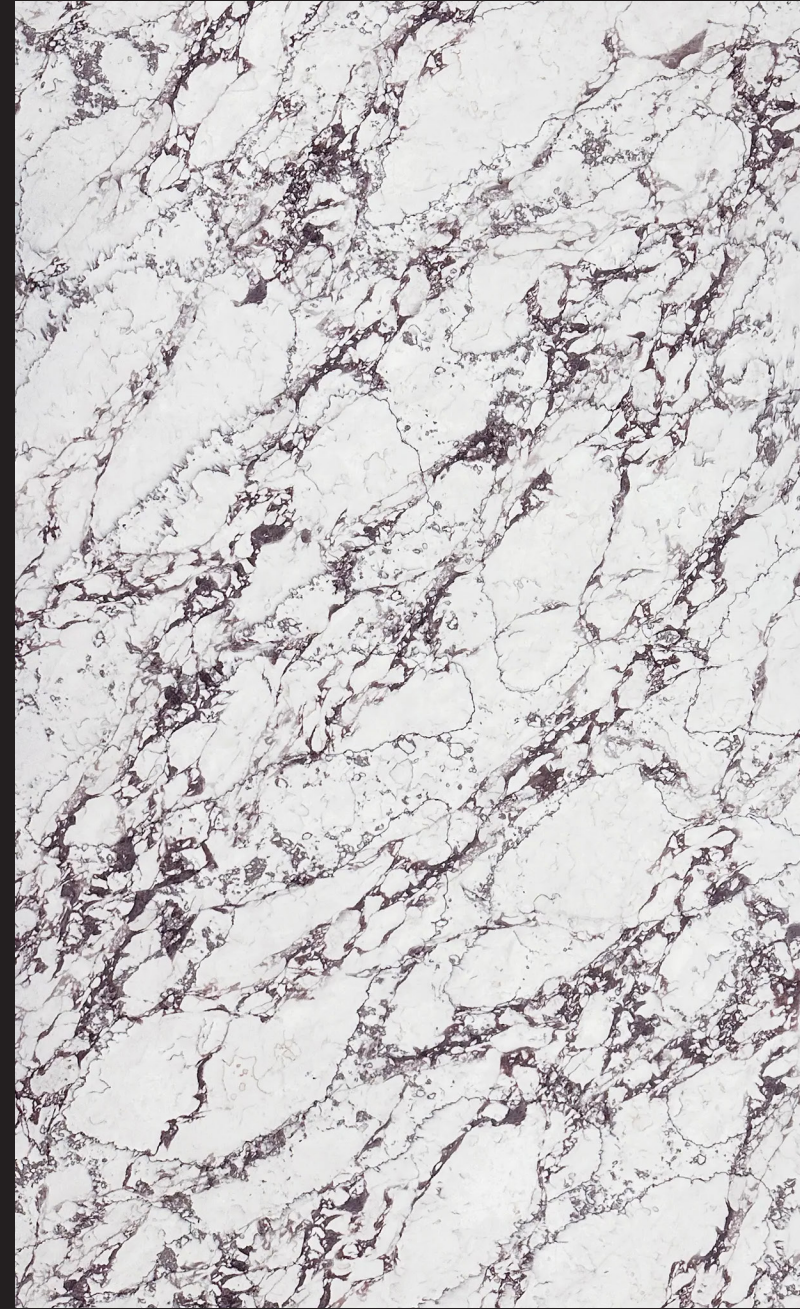

TAJ MAHAL LUX ULTRA

A creamy background adorned with delicate wispy veins enhances refined elegance. The shades include deep tan and beige marbling, creating a striking visual contrast reminiscent of natural stone.

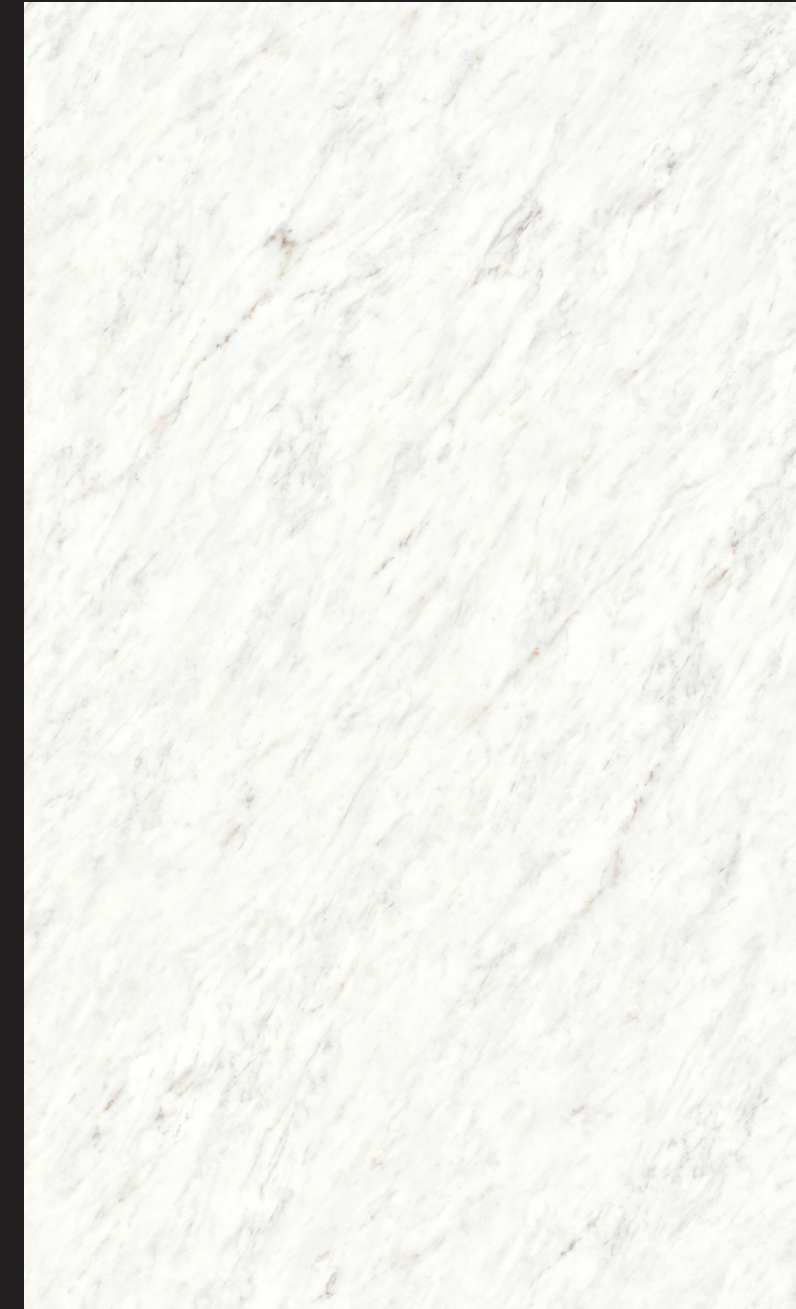

MONT BLANC LUX ULTRA

A serene, cloud-white surface adorned with delicate, long veins in soft graphite and greige that flow diagonally across the slab. The subtle movement and light marbling create an elegant design that is clean and bright.

CALACATTA VIOLA LUX ULTRA

The white background is adorned with an intricate network of deep rich colored veins, creating an artistic and sophisticated natural design with a timeless appeal.

CALACATTA VERMONT LUX ULTRA

Whisper-soft veining drifts across a luminous white canvas, delivering an inviting, gently warmed elegance that brightens any space and pairs effortlessly with both cool and warm palettes.

CRISTALLO LUX ULTRA

Gently layered textures on a luminous white surface create a glassy, snow-like appearance with subtle details and a seamless contemporary design.

Calacatta Viola Lux Ultra

ULTRA Through-Body

The Revolux **ULTRA** collection is designed with advanced printing technology to ensure that the color of the slabs matches the surface, maintaining a consistent appearance. The surfaces display seamless veining, providing an authentic look to edge profiles and installations such as undermount sinks.

The Next Evolution in Surface Innovation

We are proud to present our new Zero Silica Surface, an industry-leading innovation designed to revolutionize the way you think about surface materials. Crafted with less than 1% crystalline silica—far below the 90-95% in traditional quartz—it complies with OSHA guidelines while redefining efficiency for fabricators. Maintaining the unmatched durability and elegance of Revolux surfaces, this innovation sets a new standard for sustainability and modern design.

Luxury *with a* Conscience

Our surfaces are made with up to 80% recycled glass and utilize 100% recycled water in production, embodying our commitment to reducing waste and conserving resources. With a focus on sustainable growth, we combine exceptional quality with innovation, creating a lasting legacy of responsibility and care—proving that luxury and sustainability can coexist seamlessly.

ECO FRIENDLY

REDUCE

Leading with under 1% silica for a safer, smarter future.

RECYCLE

80% recycled material, reducing waste and carbon footprint.

REUSE

100% water reused, zero waste, and biodiversity protected.

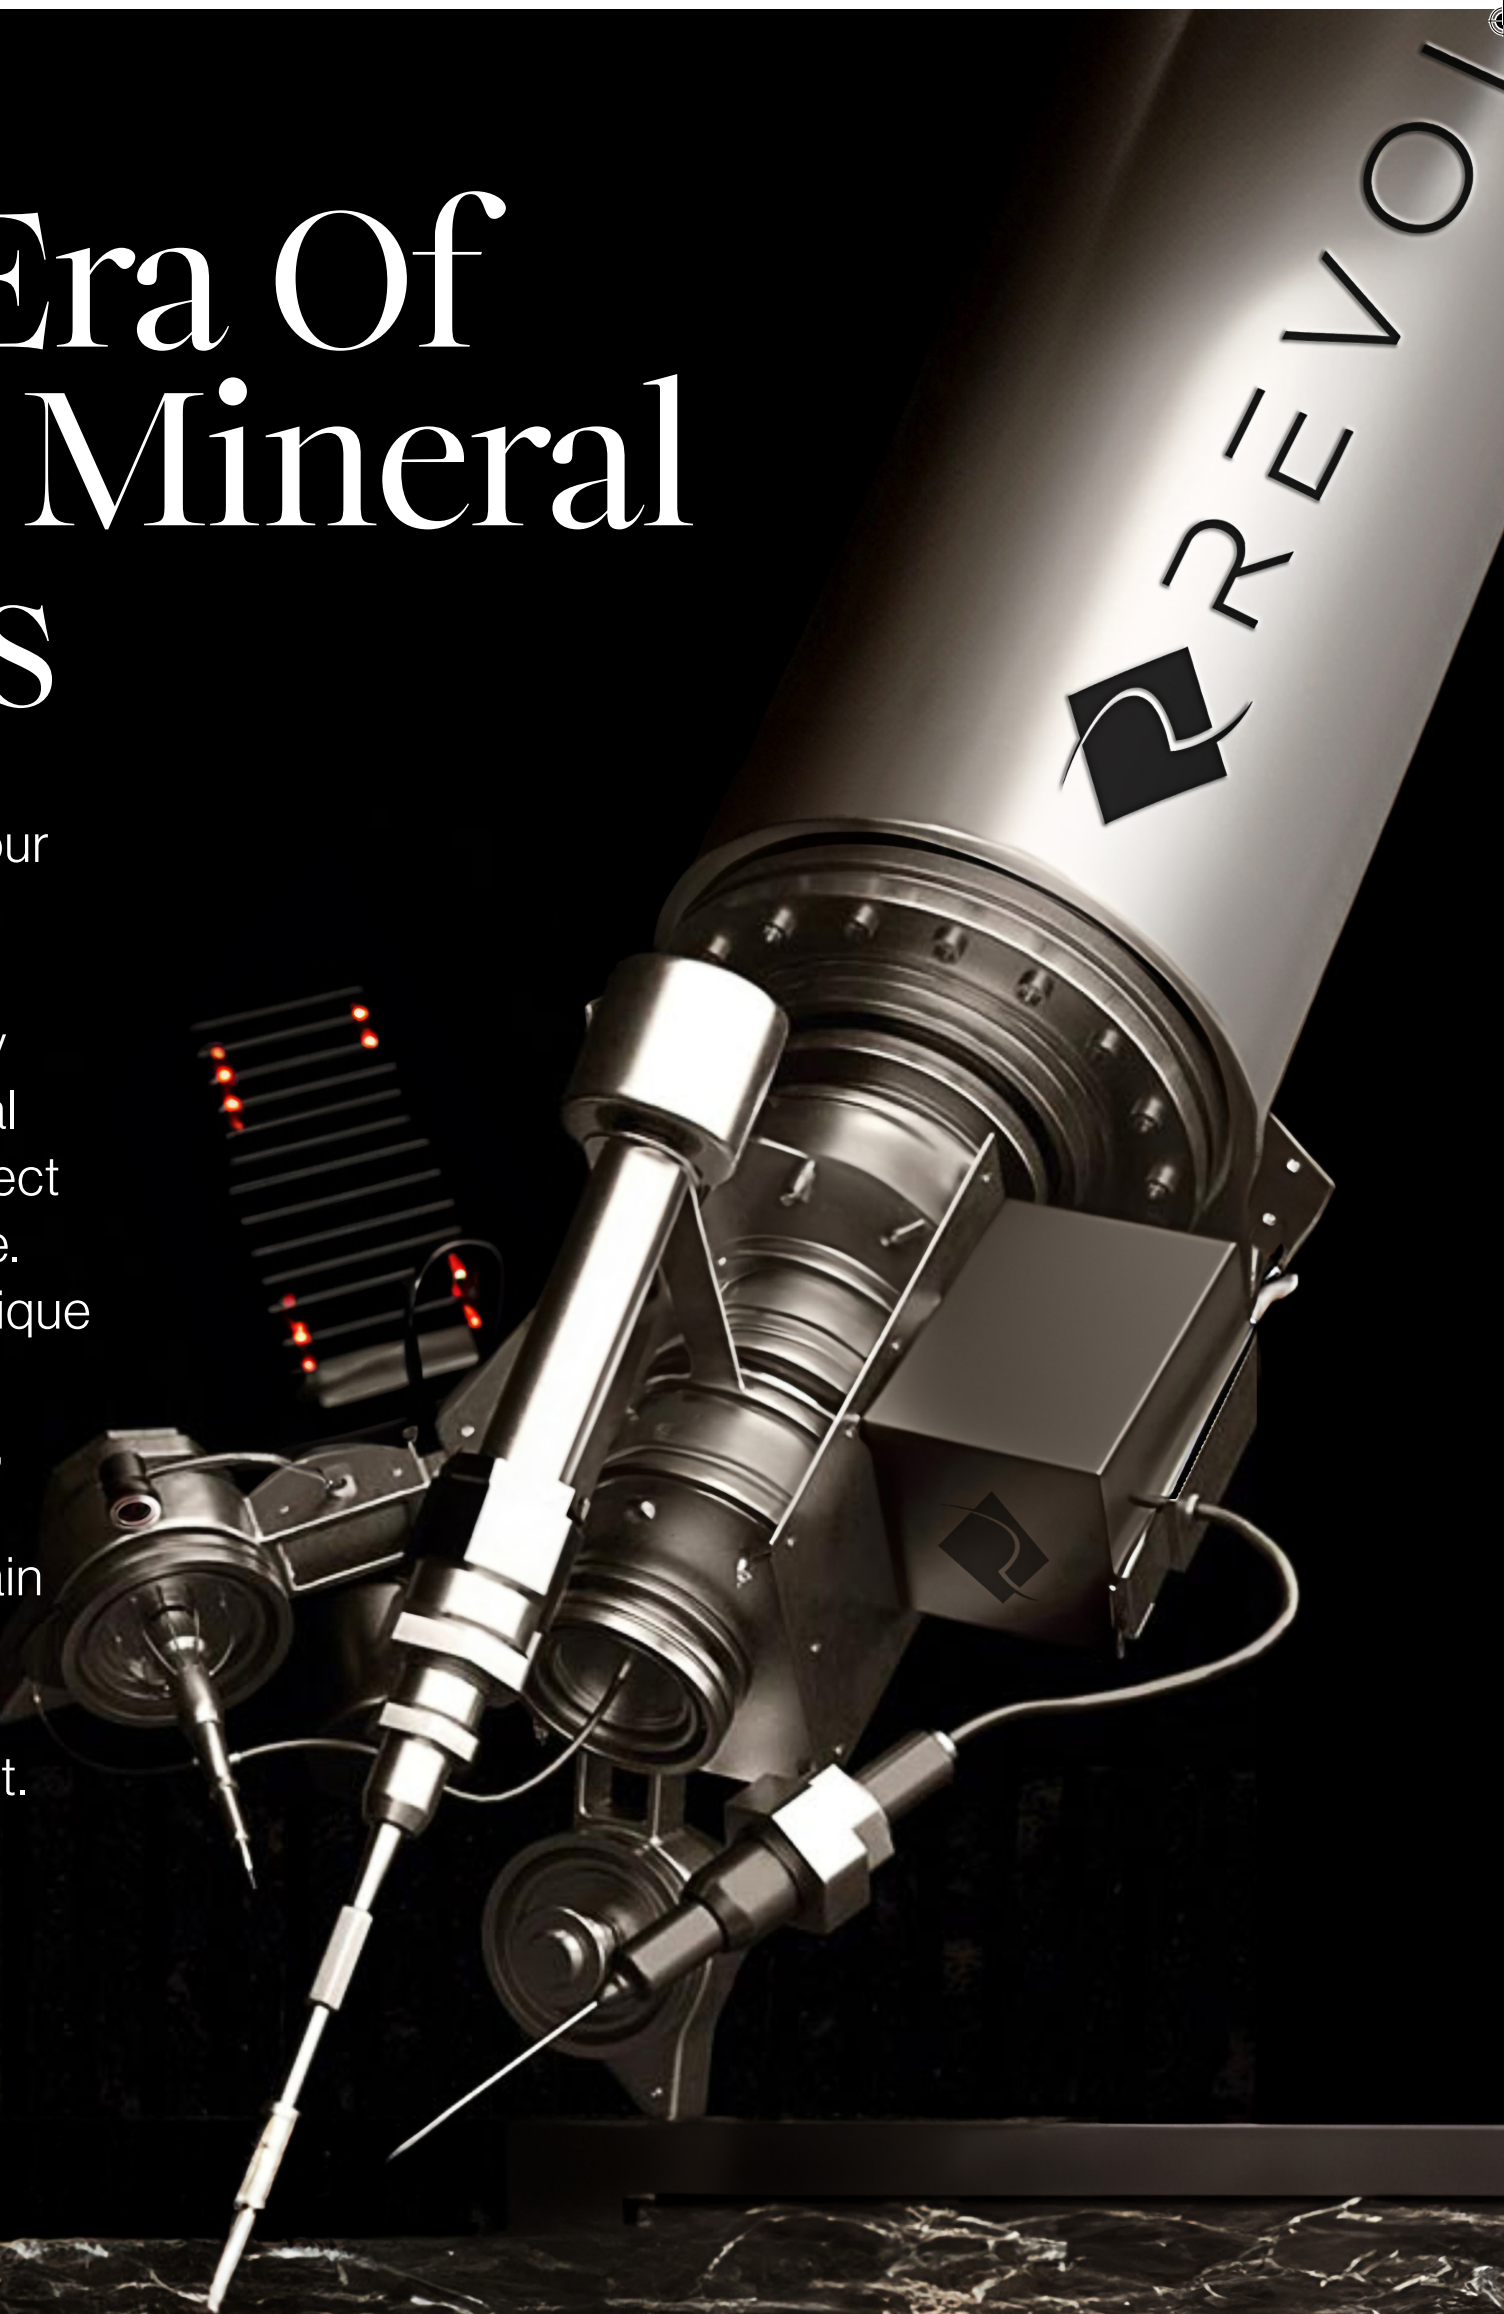

RESPECT

Low-impact surfaces for a greener, more sustainable future.

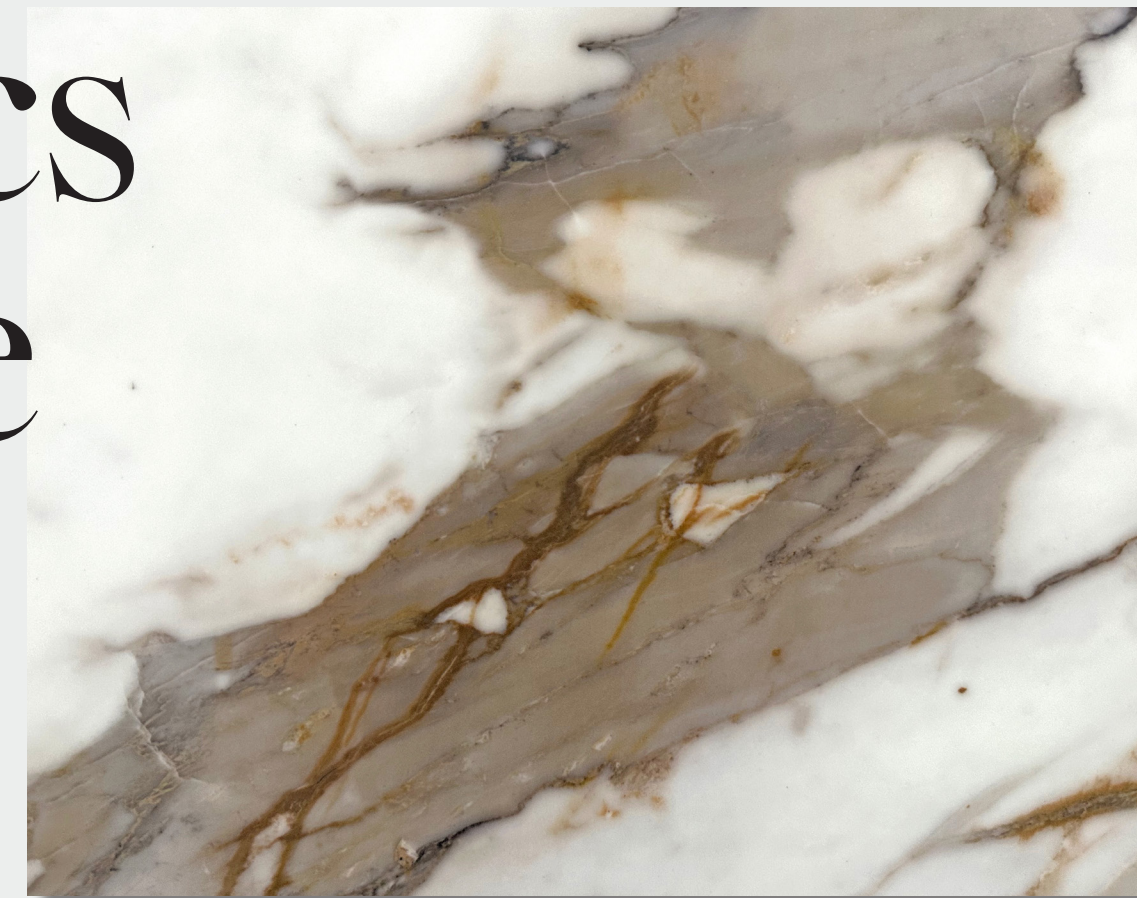

A New Era Of Luxury Mineral Surfaces

Our patterns are printed with our patented 5D nanotechnology that penetrates the surface up to 1 mm, delivering authenticity of color and an ultra-high visual depth. Our surfaces are a perfect representation of natural stone. This technology results in a unique surface with depth and clarity, high definition in every pattern, and amazing translucency. A new surface with no visible grain results in better light reflection and brightness than any other engineered stone in the market.

Aesthetics of Nature

Our advanced technology creates veins with exceptional precision, enhancing both the visual appeal and consistency of our stone products. The lifelike patterns and unique translucency add depth and dimension, ensuring authenticity. Our veined surfaces complement both modern and traditional interior designs seamlessly.

Calacatta Macchia Vecchia Lux

Bookmatch Design

Create a book-matched design and a seamless aesthetic by aligning veins from side to side. The book-matched design is available for our veined surfaces, offered in both left and right versions.

Calacatta Borghini Lux

SURFACE SPECIFICATIONS

Product Type: Mineral Surface

Finish: Polish, Velvet & Satin*

**Velvet & Satin are not available in all colors.*

Bookmatched: Yes*

**Not available for Calacatta Viola Lux, Mont Blanc Lux & Cristallo Lux Ultra colors.*

Design:

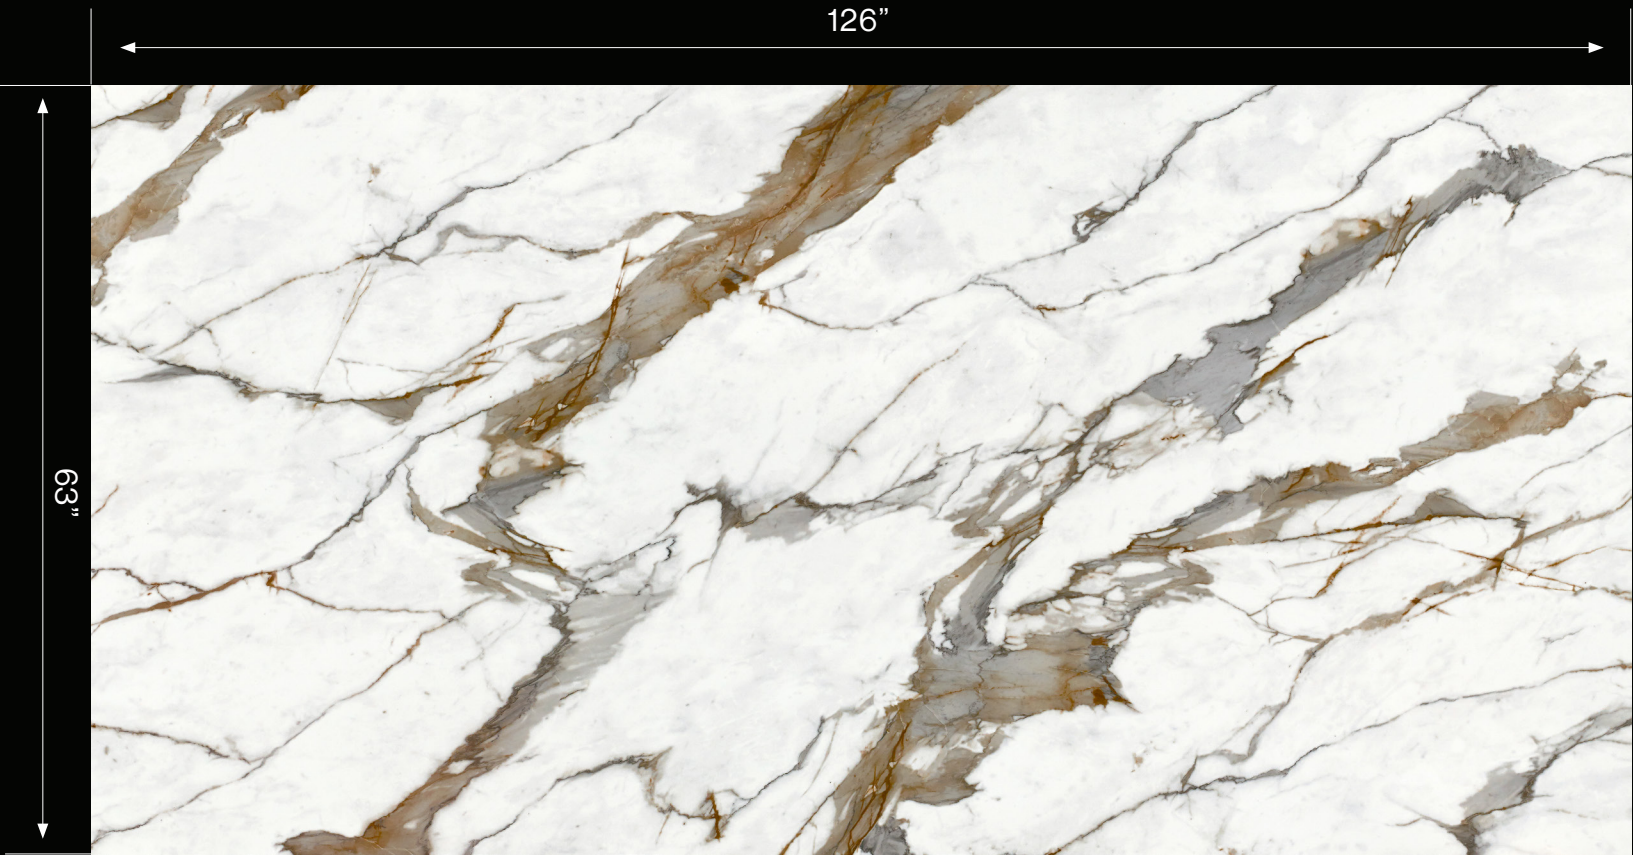

Standard - Non Through-Body
Ultra - Through-Body

Size: 126" x 63"

Thickness: 3/4" (2cm) and 1-1/4" (3cm)

Sustainability: Under 1% Crystalline Silica, 80% recycled materials, and 100% water reused in production.

Edges: Mitered edge is recommended

APPLICATIONS

Our surfaces offer endless applications for interiors, seamlessly enhancing commercial and residential spaces. From sleek interior countertops and stylish walls to durable shower walls and elegant furniture tops, Revolux is the ultimate choice for versatile design solutions.

CERTIFICATIONS

Certified food-safe under NSF/ANSI guidelines, ensuring dependable safety for kitchens and food preparation areas. With Greenguard and Greenguard Gold certifications, they guarantee low chemical emissions, providing a sustainable and secure option for both residential and commercial environments.

COMPOSITION & SUSTAINABILITY

Revolux surfaces are designed with sustainability in mind, comprising up to 80% recycled materials, including reclaimed glass . Enhanced with patented printing technology, they deliver a realistic natural stone appearance and exceptional durability, all while featuring low to Zero Silica content to meet modern environmental and performance standards.

FABRICATION

All slabs can be supplied with a UV protective film as well for storage only removed when fabricated. Plywood, wood, medium-density fiberboard, and structural steel are the recommended support materials for cabinets that need additional support. You can refer to our fabrication guide for manufacturing recommendations:

revoluxusa.com/resources

MAINTENANCE

Low maintenance and easy to clean. It does not require sealing. You can refer to our care and maintenance guide for recommendations: revoluxusa.com/resources

PERFORMANCE

Revolux Surfaces upholds stringent quality standards and controls to ensure top-notch products. Our technology allows us to provide exclusive natural stone-effect designs with industry-leading performance. Through our advanced surface technology and innovative stain and substance-repellent technology, we are proud to be the only brand offering a Lifetime Stain Warranty.

PRICING

Revolux's range of mineral surfaces have been designed to bring the elegance of stone surfaces into homes at an affordable price point, ensuring that luxury living is within reach for everyone.

ZERO SILICA

Our Zero Silica surfaces are meticulously engineered with less than 1% crystalline silica, a breakthrough innovation that prioritizes advanced performance and durability. Designed to adhere to OSHA compliance standards, it meets the highest expectations of modern design and construction professionals. This cutting-edge surface offers exceptional quality and reliability, providing an innovative solution for projects that demand both aesthetic appeal and long-lasting performance.

WARRANTY INFORMATION

Revolux surfaces come with a **25-year warranty**, which guarantees their durability and long-lasting quality. Additionally, our NEOS Tech provides a **Lifetime Anti-Stain Warranty**, ensuring that you can enjoy your surfaces for years to come without worrying about stains or spills.
