TERMS AND CONDITIONS:

This warranty applies only to Revolux EcoPress products in interior residential applications. Commercial applications are expressly excluded from this warranty.

Validity of the warranty:

25-year Residential Limited Warranty. Revolux EcoPress guarantees that our material will be free from manufacturing defects during the indicated period.

Thanks to its beyond-belief technology NEOS, Nano Enhancement of Surfaces, an innovative high-performance stain and substance-repellent technology developed for Revolux EcoPress surfaces, we are the only brand to include a **Lifetime Stain Warranty**.

Revolux EcoPress guarantees that your countertop will resist staining and will be protected from a broad range of chemicals and acid corrosion (between pH1 and pH13).

To activate this policy, it is compulsory to register the product here, maximum 6 months after the purchase. The original receipt could be required anytime by Revolux EcoPress. In the case of the acquisition of a new house, Revolux EcoPress honors the real estate purchase contract as the original receipt. You are responsible for entering the correct details in the registration form. Those are: contact details, where Revolux EcoPress is installed and product information. In case any information is not correct, your Revolux EcoPress product may not be properly covered.

This warranty is personal and not-transferrable to the natural person that registers his/her personal information according to the instructions given in the registration form.

In order to obtain assistance during the validity of the warranty, you must contact the commercial establishment where the product was purchased or alternatively, you may contact Revolux EcoPress directly.

In order to assess any product claim, the policyholder agrees to allow any professional authorized by Revolux EcoPress to enter wherever the product is installed to examine the product and take pictures of the material and installation. The purchaser and/or the fabricator/installer are responsible to inspect each slab for color, pattern and defects. Material with visible manufacturing defects must not be used. Samples are small select cuts from a slab; they do not exhibit all the characteristics of a design and therefore are not fully representative of what will be installed.
